**Susco Solutions CEO Featured in GNO Inc.'s Annual Luncheon Film  
"Greater New Orleans Region: A Greater Reality".**

NEW ORLEANS, LA –March 25, 2009 –Susco Solutions, LLC, a custom web and software development firm, announced that its CEO Neel Sus has been featured in GNO Inc.'s short film "Greater New Orleans Region: A Greater Reality. Mr. Sus represented the regions creative and digital media segment in the film that was featured at GNO Inc.'s annual membership luncheon on March 12th.

The GNO, Inc. Mission is to serve as the catalyst for wealth creation in the Greater New Orleans region. Michael Hecht, the new President/CEO of GNO Inc. stated at the luncheon that "GNO Inc. has been working on a multipronged plan to revitalize the 10-parish region by focusing on four key industries: international commerce, energy, aerospace and defense manufacturing, and creative media services."

Neel Sus commented, "I am proud to have been featured in such an amazing short film depicting the great things happening in the Greater New Orleans Region. The city is a great place to live, work and prosper. We have a great advantage in our quality of life, culture, and cost of living. It's wonderful to see the brain-gain that we're experiencing. New Orleans has also become a entrepreneurial hub, which I'm excited to be part of."

**About Susco Solutions:**

Susco Solutions is a New Orleans custom-programming firm that develops intuitive websites and desktop software. The company builds robust customer-centric websites that enable businesses to create internet-based revenue streams. Susco Solutions also develops software that helps businesses remove inefficiency from their recurring business tasks, giving them more time to focus on what they do best.
